

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

September 16 through 30, 2000

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse from September 16th through 30th, 2000.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone:	(916) 445-0613
Fax:	(916) 323-3018
e-mail:	state.clearinghouse@opr.ca.gov
website:	www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joungh and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

**State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044**

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Federal Notices

Intergovernmental Review Notices (September 16th- 30th, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Bureau of Reclamation, U.S. Department of the Interior

CONTACT: David Young

TELEPHONE: (559) 487-5127

ADDRESS: Bureau of Reclamation
Mid-Pacific Regional Office
2800 Cottage Way
Sacramento, CA. 95825

DESCRIPTION: The Bureau of Reclamation has released for public review and comment a draft Environmental Assessment for a proposed transfer of ownership of an existing water distribution system from the Bureau of Reclamation to the Montecito Water District (MWD). The draft EA was prepared in accordance with the National Environmental Policy Act of 1969. It describes the potential environmental impacts, both beneficial and adverse, associated with the proposed alternatives. The proposed project is a transfer of ownership of the distribution system and does not include any new physical modification or expansion of the service infrastructure. The project's purpose is to simplify the operation and maintenance of the distribution system by reducing unnecessary paperwork and consultation between the two agencies.

COMMENT BY: October 16, 2000

AGENCY: Bureau of Land Management, U.S. Department of the Interior

CONTACT: Roger F. Hughes

TELEPHONE: (760) 252-6026

ADDRESS: Bureau of Land Management
Barstow Field Office
2601 Barstow Road
Barstow, CA. 92311

DESCRIPTION: United States Department of the Interior, Bureau of Land Management is considering a proposal to exchange lands in Kern and San Bernardino counties California. The proposed exchange will be with Roger F. Hughes, Trust of Lancaster, California. The Federal Lands are being considered for disposal in the proposed exchange containing 60 acres, more or less in Kern County. In exchange the U.S. will acquire all or a portion of the non-Federal lands containing 8055.18 acres, more or less, in San Bernardino County. The purpose of this exchange is to acquire and consolidate public land ownership and achieve the multi-agency objectives of the Western Mojave Land Tenure Adjustment (WMLTA) Project. Disposal of the isolated public land tracts is consistent with the WMLTA Project and the California Desert Conservation Area Plan (1980), as amended. The Lands will be exchanged under the Roger F. Hughes, Trust, Assembled Land Exchange Agreement. The Federal lands will be conveyed directly to U.S. Borax Inc., a Delaware corporation.

COMMENT BY: N/A

AGENCY: Bureau of Land Management, U.S. Department of the Interior

CONTACT: Ilene Emry

TELEPHONE: N/A

ADDRESS: Bureau of Land Management, U.S. Department of the Interior
Redding Resource Area
355 Hemsted Drive
Redding, CA. 96002

DESCRIPTION: The Bureau of Land Management (BLM) has received a proposal for exchange of public land for private property owned by William A. Rich and James D. Parrott. The objectives of the area are to acquire lands to provide motorized recreation opportunities; enhance non-motorized recreation along Sacramento River; improve supply of forest products; improve deer winter range; maintain sensitive species habitat; maintain scenic quality; maintain opportunities for mineral development. The private land would be a part of these objectives. They also conform to the Interlakes Special Recreation Management Plan dated January 5, 1998. The 26 acre private land parcel is within the Grass Valley Creek watershed where the objective is to control erosion due to the decomposed granite soils.

AGENCY: Bureau of Reclamation, U.S. Department of the Interior

CONTACT: Paul Fujitani

TELEPHONE: (916) 979-2197

ADDRESS: Bureau of Reclamation, Mid-Pacific Regional Office
2800 Cottage Way
Sacramento, CA. 95825

DESCRIPTION: Reclamation began the seasonal drawdown of Whiskeytown Lake on September 15. The drawdown is designed to lower the lake 6 feet more than normal to allow for improvement work at the Whiskey Creek Boat Launch Ramp. The Lake elevation is being gradually lowered from the summer operating elevation of 1209 feet, to about elevation 1192 feet by October 15. From October 15 through November 15, work will be done by the National Park Service to extend the boat ramp at the Whiskey Creek boat launch facility. After the work is completed at the boat ramp area, the lake elevation will be allowed to increase back to the normal winter elevation of 1198 feet.

AGENCY: Army Corps of Engineers

CONTACT: Clyde Davis

TELEPHONE: (415) 977-8449

ADDRESS: Regulatory Branch
333 Market Street
San Francisco, CA. 94105

DESCRIPTION: Barry Freelaand of Land Development & Construction Consultants in Prunedale, California has applied on behalf of Ms. Audrey Pennington & Mr. Richard Pennington,, for a Department of the Army permit to place up to 1,500 cubic yards of permanent fill material into an 825-foot length of a constructed stream diversion channel. The applicant plans to construct single family homes on approximately 7 acres within the City of San Juan Bautista. The project site is currently occupied by a single residence and mixed agricultural uses. The proposed housing development project will include construction of homes, roadways and related utilities.

COMMENT BY: October 25, 2000

AGENCY: Army Corps of Engineers

CONTACT: Richard Flynn

TELEPHONE: (415) 977-8470

ADDRESS: Regulatory Branch
333 Market Street
San Francisco, CA. 94105

DESCRIPTION: The Sonoma County Water Agency, Santa Rosa, California has applied for a Department of the Army permit to fill 0.48 acre of jurisdictional wetlands and 0.04 acre of jurisdictional waters. The project area is a mixture of agricultural and rural residential areas. A pipeline routes that connects to existing facilities at the Sonoma County Airport will primarily following existing vineyard access roads and open pasture land areas. The storage pond site is a pasture area currently used as grazing land for dairy cattle.

COMMENT BY: October 23, 2000

AGENCY: Fish and Wildlife Service, U.S. Department of the Interior

CONTACT: Curt McCasland

TELEPHONE: (916) 414-6600

ADDRESS: Fish and Wildlife Service
Sacramento Fish and Wildlife Office
2800 Cottage Way, Room W-2605
Sacramento, CA. 95825

DESCRIPTION: On September 11, the U.S. Fish and Wildlife Service (FWS) proposed the designation of 5.4 million acres across 31 California counties as "critical habitat" for the California red-legged frog, a species listed as threatened under the Endangered Species Act (ESA). This proposal will have a significant affect on virtually all land development and resource use projects within the designated areas. The only opportunity to affect this proposal is during the public comment period, which runs until October 11.

COMMENT BY: October 11, 2000

AGENCY: Federal Energy Regulatory Commission

CONTACT: Jim Haimes

TELEPHONE: (202) 219-2780

ADDRESS: Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

DESCRIPTION: Situated in a mountainous, mostly undeveloped area east of Springville City, approximately 60 miles south of Salt Lake City, the subject project does not include a dam or reservoir. Instead it operates using relatively small quantities of water removed from underground springs of small creeks located at high elevations and then transported downhill by way of underground

<u>Documents Received on Monday, September 18, 2000</u>			
1995092028	Fresno General Plan Update EIR No. 10123 Fresno, City of Fresno--FRESNO Adopt propose 2000 general plan to guide city's growth & development to the year 2000.	EIR	11/01/2000
1998092031	Bell Road Widening Placer County Auburn--Placer Proposal to widen Bell Road to provide 4 travel lanes between state Highway 49 and Interstate 80 plus shoulders and a median to accomodate left-turn lanes where needed.	EIR	11/01/2000
2000051014	UCLA Southwest Campus Student Housing University of California, Los Angeles West Los Angeles--Los Angeles The University of California, Los Angeles proposes to construct a new housing complex to accommodate single graduate, professional, and upper division undergraduate students on an approximately 15-acre site in the southwest zone of the campus. The site is generally bounded by Strathmore Avenue on the north, Gayley/Levering Avenues on the east. Weyburn Avenue and the Rehabilitation Building on the south, and Veteran Avenue on the west. The site accommodates the Taper Center, Warren Hall and surface parking lots. The project would provide approximately 2,000 beds and 2,068 parking spaces in three and four story residential buildings above partially below-grade parking structures. The residential complex would also include ancillary facilities such as common areas for social and recreational functions, an exercise facility, space for workshops and other academic related functions, administrative space, a maintenance shop and a small convenience store. The project would be clustered around a large central plaza with smaller courtyards and open areas for student gatherings. Both phases of construction would total approximately one million gross square feet.	EIR	11/01/2000
2000071115	The Olson Company Residential and City of Brea Sports Park Project Brea, City of Brea--Orange The residential component includes up to 66 single-family detached residential units and up to 86 multifamily townhomes. Approximately 20 acres of the site will be designated for public uses that would include active and passive recreational facilities, such as baseball and soccer fields, tennis courts, play areas, picnic grounds, and other ancillary facilities. The project may also potentially include an elementary school. As part of the proposed project, some of the existing oil and gas production facilities onsite will be retained in a portion of the site.	EIR	11/01/2000
1999082015	64-Acre Tract Intermodal Transit Center Placer County Planning Department Tahoe City--Placer The proposed project is to construct and operate an Intermodal Transit Center on a parcel of land known as the 64-Acre Tract. The intermodal Transit Center would include an enclosed heated area suitable for waiting and providing visitor	FIN

	information services, a covered waiting area, six transit bus bays, and a 130 space parking area for transit patrons, trail users, and pedestrians. The intersection for the existing roadway serving the parcel will be relocated to the north resulting in a slight realignment of the roadway on the parcel.		
2000091059	2001 Regional Transportation Plan (RTP) Update Program Southern California Association of Governments --Los Angeles, Orange, Riverside, San Bernardino, Ventura, ... The RTP is a performance-based plan aimed at providing long-range transportation goals, objectives, policies and strategies to improve transportation within the region. The RTP is intended to meet the changing socio-economic, transportation infrastructure, financial, technological and environmental conditions of the region.	NOP	10/17/2000
2000091062	Arroyo Seco Master Plan Pasadena, City of Pasadena--Los Angeles The Arroyo Seco Master Plan Project consists of five elements: (1) Hahamonga Watershed Park Master Plan (HWP), (2) Central Arroyo Seco Master Plan (CAMP), (3) Lower Arroyo Seco Master Plan (LAMP), (4) The Rose Plan, and (5) Design Guidelines for the Arroyo Seco. The goal of the Arroyo Seco Master Plan is the development of a Master Plan to guide the provision of facilities for the passive and active recreation that support Policy 9.2 of the City of Pasadena Comprehensive General Plan.	NOP	10/17/2000
2000091063	Gano Reservoir and Unit X Pipelines Project Olivenhain Municipal Water District San Diego--San Diego The Gano Reservoir and Unit X Pipeline Project is comprised of two primary elements: two potable water storage reservoirs and supporting pipelines. Two water storage tanks located adjacent to each other will be built in two phases. The supporting pipelines would be constructed in the first phase.	NOP	10/17/2000
2000091065	Santa Ana Second Main Track Southern California Regional Rail Authority Orange, Santa Ana--Orange The proposed project includes the construction and operation of a second main railroad immediately adjacent to, and west of, the existing single track from approximately La Veta Avenue in the City of Orange south to 17th Street in the City of Santa Ana. The proposed second main track would primarily be located within the existing Orange County Transportation Authority right-of-way along the Southern California Regional Rail Authority (Metrolink) railroad. Project construction from Fairhaven Avenue south to 17th Street may require the acquisition of street rights-of-way from the City of Santa Ana. In addition, the Santa Ana Second Main Track project would include limited improvements to four intersections (La Veta Avenue, Fairhaven Avenue, Santa Clara Avenue, and 17th Street) and a second (parallel) bridge over Santiago Creek.	NOP	10/17/2000

<u>Documents Received on Monday, September 18, 2000</u>			
1992013033	Gravel Removal From Lower Eel River in Humboldt County Humboldt County Eureka--Humboldt Modification to previously approved Surface Mining and Conditional Use Permits for the extraction of 40,000 cubic yards of sand and gravel aggregate from a 3 mile reach of the Van Duzen River near its confluence with Yager Creek. The applicant is requesting reconstruction of the extraction limit based upon submitted cumulative impact analysis supporting extraction of up to 200,000 cubic yards annually. All other aspects of the project e.g., on-site processing, stockpiling, and hauling) are proposed to remain unchanged as per the approved project conditions and restrictions, and the mitigation measures identified in the Supplemental Environmental Impact Report, certified on October 28, 1997.	NOD	
1998061010	San Dieguito Wetland Restoration San Dieguito River Park Joint Powers Authority San Diego, Del Mar--SAN DIEGO Restoration plan for 440 acres of Wetlands and Upland habitat and adoption of a Park Master Plan for the western San Dieguito River Valley.	NOD	
1999122011	San Jose City College Facilities Master Plan San Jose-Evergreen Community College District San Jose--Santa Clara The proposed Master Plan includes a series of projects for the campus that involve the removal of many existing buildings, the development of several new buildings (approximately 553,000 to 578,000 square feet), renovation of existing buildings, modifications to access and circulation, development of new athletic fields and tennis courts, provision of additional parking, modification and expansion of other campus infrastructure, and renovation of the campus landscaping. Almost all facilities would be developed within the existing campus boundaries; a proposed High Technology Center at the corner of South Bascom Avenue and Moorpark Avenue would be built by a private developer, with the option for the College to enter into a long-term ground lease. In this case, the developer would submit its own application to the City for construction of the building, and construction of the building would be processed under separate environmental review. It is estimated that buildout of the proposed Master Plan area would accommodate an enrollment of approximately 15,000 students by the year 2014.	NOD	
2000062050	Wallace and Hinz Manufacturing Facility Arcata, City of Arcata--Humboldt Construction of an approximately 29,000 square foot industrial manufacturing facility located just south of 10th Street between Q and O Streets.	NOD

1999091090	<p>Tentative Tract #52539, 113 Single Family Lots Los Angeles City Planning Department Los Altos, Mission Hills--Los Angeles Zone Change from A2-1 to R1-1 in conjunction with Tentative Tract Map No. 52539 to permit the construction of 113 single-family homes on a 28.76 acre site, with two existing single-family homes to remain (Lots 93 and 115) as well as the existing YMCA childcare facility on Lot 116. The two remaining single-family homes will be demolished as well as a small shed. Primary access to the proposed project would be provided off of Mission Hills Road via an existing easement located between the Ararat Retirement Home and an existing surface parking lot that will become a fully improved street. Emergency access is proposed via the extension of Indian Hills Road between two existing single-family sites. Additional requested entitlements include a General Plan Amendment to change the land use designation from "Residential Very Low" to "Residential Low", Yard Variances may be required for the setbacks of two single-family dwellings, a Plan Approval to permit the reconfiguration of an existing surface parking lot to accommodate the project's primary access road, and a Plan Approval to permit the modification of the existing approved YMCA childcare facility Conditional Use Permit to accommodate the project's secondary access. Utilities for the proposed project (e.g., electricity, natural gas, sewer, water) would be extended onto the project site from either Mission Hills Road or Indian Hills Road.</p>	EIR	11/02/2000
1999101125	<p>The Sully-Miller / Fieldstone Project Orange, City of Orange--Orange The proposed project consists of the development of up to 190 single-family detached residential units on a 110-acre site in the Orange Park Acres area of the city of Orange. The project site contains 15 separate parcels owned by the Sully-Miller Company or Hanson Minerals PLC. Santiago Creek runs east to west across the northern portion of the site. The development would also include internal streets, open space and recreation areas, and regional riding hiking trail connections. Access to the portion of the site north of Santiago Creek would be provided from Mabury Avenue while access to portion south of the creek would be provided from Santiago Canyon Road.</p>	NOP	10/18/2000
2000091075	<p>Moreno Valley General Plan Update Moreno Valley, City of Riverside, Perris--Riverside The proposed project consists of a comprehensive update of the City of Moreno Valley General Plan. The proposed City of Moreno Valley General Plan will be divided into several elements, whose various sections together will meet the requirements for the seven mandatory elements under state law plus an optional economic development element.</p>	NOP	10/18/2000

2000091076	Commercial WECS Permit #107/CZ #6486/VAR #1679 Riverside County Planning Department Palm Springs--Riverside The proposed project, located in unincorporated Riverside County, north of the City of Palm Springs, California, proposes to install and operate a Wind Energy Conservation System (WECS) development configured in accordance with one of two alternative site plans for the same site. Alternative Site Plan 1 includes thirty nine (39) 600,660 of 700 kW wind tribunes, capable of generating approximately 23-27 megawatts of total power, each with an overall height between 236 and 271 feet, configured in three rows on a north-south alignment across the site and requiring grading permits to move approximately 8.800 cubic yards of earth.	NOP	10/19/2000
2000091079	Texaco Hollister Ranch Pipeline Abandonment Project Santa Barbara County --Santa Barbara The project is the abandonment of pipelines in a corridor approximately seven miles long. The corridor starts at the Gaviota State Park and runs west through the Hollister Ranch to Augustin Point. The pipelines run parallel to shore and are approximately one-quarter mile from the shoreline. The pipeline crosses 11 creeks and a number of ravines. There are a total of three pipelines in the corridor, which include one 8 inch, one 6 inch and one 2.5-inch pipeline. The 2.5-inch pipeline runs approximately two miles to a pig receiver at Alegria Creek. The 8 inch and 6 inch pipelines run the entire seven miles. The pipelines are buried greater than three feet in depth along the entire corridor, except for those locations where they are exposed due to erosion or by design (pipelines spanning ravines on pipe supports). The pipelines are buried at various depths below the creek beds. There are a total of 38 locations along the pipeline corridor where work to abandon pipelines would be conducted. A number of different work procedures would be conducted at each site.	NOP	10/19/2000
2000091077	EA KC 5-00 Kern County Planning Department Bakersfield--Kern The applicants are proposing to construct a 4,000-square foot building to accommodate a 625 square foot office area and 3,375 square feet of equipment storage. The storage area will house a forklift and a small tractor. A plant display for trees, shrubs, and ground covers will be located just east of the proposed building. Sixteen (16) off-street parking spaces are being provided. A covered concrete work loading area will be located behind the building which will also be used for transplanting or separating plants. Planned hours of operation will be Monday through Friday, 8:00 a.m. to 5:00 p.m. and Saturday mornings from 8:00 a.m. until 12:00 p.m. Site access is from Snow Road. The applicant states that Jennica Water Company will be providing potable water to the site; sewage disposal will be from a private septic tank system.	Neg	10/19/2000

2000091096	The Santa Ana Canyon Retail Plaza and Residential Development Project Anaheim, City of Anaheim--Orange The proposed project is the development of an approximate 24.5-acre site in the City of Anaheim. Currently, the property is held in two different ownerships: the northern 5.76 acres of the site (Shantz property) is vacant and the southern 18.76 acres of the site (Maag Ranch) is currently in agricultural production. The proposed project would allow for the development of commercial and residential land uses. The proposed commercial portion would be approximately 15.2 acres on the west side of the project site. The residential portion will be approximately 9.3 acres on the east side of the project site.	NOP	10/24/2000
2000092069	Sea View Ranch, Planned Development, Special Use Permit and Tentative Subdivision Map (U-1-00, PD-1-00, S-2-00) Watsonville, City of Watsonville--Santa Cruz The project applicant has requested a planned development rezoning to allow construction of approximately 370 single-family dwelling units on approximately 66.63 acres. The proposal includes construction of 268 single-family detached and 102 single-family attached units. Public open space adjacent to Struve Slough and a public park adjacent to Watsonville Slough are proposed as part of the project. An onsite stormwater detention facility would be constructed adjacent to the site's eastern boundary, adjacent to Watsonville Slough. The Planned Development rezoning and subsequent Planned Development Permits will set general development parameters for the site including the number and location of parking spaces, amount of landscaping, grading, maximum height and number of units, general building footprints, and minimum setbacks. 2000091104	Cup #6 Map # 103-10 Kern County Planning Department Bakersfield--Kern A conditional use permit to allow the expansion of an existing shooting range (Section 19.42.030.C) in an RF GH (Recreation-Forestry-Geologic Hazard Combining) District. The project site is a 5.72-acre parcel of record that is currently developed with a shooting range. Existing development on the site is located on the west half of the parcel and consists of a shooting range with 58 positions, a 3,200 square-foot building that is used as a meeting room as well as for weddings and other types of parties, and 58 paved parking spaces. The existing development has been on site for approximately 35 years. The shooting range is used by various law enforcement and government agencies for pistol and rifle practice. The range faces north and is bordered on the north, east and west by a 12-15 foot-high dirt berm. The range is 150 feet deep and is divided into several areas. A normal shooting group consists of 10-20 persons, with several site monitors. Pistols and rifles of various calibers are fired. Firing at night under "no light" or "low light" conditions is common, although no firing is conducted after 10 pm or before 7 am. The applicant is proposing to develop the east half of the parcel with a separate range consisting of 100 and 150 yard lengths. The development is not intended as an increase in the number of users, although 11 new shooting positions would be developed, and would operate under the same conditions as the existing range. Sewage disposal would be provided by an existing septic tank and leach field system and water supply would be provided by an existing well. Access is currently provided by a driveway at the southwest corner of the parcel. A new driveway is proposed near the southeast corner of the parcel.	Neg	10/26/2000

2000092079	Tentative Parcel Map No. 2527 by Christopher G. Fusano Amador County Plymouth--Amador Proposal to divide 188. 89 acres into four parcels of 40. 0, 40. 0 40. 0, and 68. 89 acres. The 68. 89 acre parcel is designated a Remainder Parcel. Property located ont he west side of Hwy. 124 and bordered on the north by Dry Creek in amador County.	Neg	10/30/2000
1990010738	Mount Woodson Water Line Ramona Municipal Water District The proposed project is the construction of an approximately 0.5 mile long 12 inch diameter pipeline to connect the proposed Southwest Area Reservoir to Woodson View Road located within the Mt. Woodson Ranch residential development. Installation of the pipeline will require trenching and backfilling a two foot wide by five foot deep trench along the proposed alignment. The proposed pipeline easement varies between 20 and 60 feet wide, however with appropriate construction techniques, it is estimated that the area of disturbance through sections of the pipeline that traverse sensitive habitat would be approximately 16 feet wide.	SIR	11/13/2000
1992041046	West Bluffs Los Angeles, City of LOS ANGELES--LOS ANGELES The project is CDFG's issuance of an Agreement Regarding Proposed Stream Alteration (SAA #5-169-99)("agreement") to Catellus Residential Group ("applicant") in conjunction with the applicant's proposal to alter Hastings Canyon and three unnamed drainages, tributary to Ballona Creek in order to develop a 44 acre site into a single family residential neighborhood. The streambeds will be filled, impacting 0. 15 acre of streambeds, of which contains approximately 0. 04 acre of wetland habitat and 0. 11 acre of Diegan sage scrub habitat. All impacts are permanent. The Operator shall mitigate for the loss of 0. 44 acre Diegan sage scrub habitat on site (4: 1 ratio for non-wetland impacts). The Operator shall mitigate for permanent impacts to 0. 04 acres of wetlands by (a) creating or restoring 0. 08 acres of riparin habitat at a Department approved location or (b) by providing adequate funding for the creation or restoration of 0. 08 acre of riparian habitat to an organization currently conducting restoration or enhancement of riparian habitat, with the organization and its activities to be approved by the Department. 2000098307	Hunters Creek Geologic Exploration Water Resources, Department of --Glenn The proposed project will involve temporary trenching within an alluvial deposit near Hunters Creek in Glenn County. Trenching will be accomplished using a tracked excavator. Trenching will occur in late September during daylight hours only. No occupied dwellings are present within three miles of the trench location. The anticipated trench dimensions are three-foot wide, 10-feet deep, and 50-feet long. Both ends of the trench will be sloped at a 45-degree angle and the trench will be covered with heavy gauge plywood when not in use. The trench will also be fenced to prevent livestock entry into the trench area. The trench will be open for two to three weeks. Upon completion of geologic exploration, the trench will be backfilled, compacted, and restored to current topography. All topsoil will be stockpiled separately and spread over the backfilled trench. Upon project completion all bare soil areas will be seeded with native grassland herbaceous species.	NOE	
2000098309	Slide Repair Caltrans #2 --Shasta This project proposes to install concrete median barriers and paving of the median with Asphalt Concrete (AC). 2000098313	Wasco State Prison Wastewater Prescreening Facility Project Corrections, Department of Wasco--Kern The proposed project at the Wasco State Prison (WSP) would construct a prescreening facility to remove large-sized debris from the wastewater collection system at the WSP Wastewater Treatment Plant (WWTP). The prescreening facility would be approximately 1200 square feet in size, with two channels from the ground to the collection system's main line, isolation gates to allow independent channel flow, and automatic bar screens in both channels to carry debris to the top structure. The project is needed because the WSP WWTP has an on-going problem with copious amounts of large-sized debris flushed into the wastewater collection system by inmates. The WSP has to manually remove the debris on a daily basis in order to prevent clogging of the wastewater treatment system. The project would provide an efficient method of debris removal to accommodate the existing prison population.	NOE	
2000098314	Transfer of Coverage to El Dorado County APN 32-281-35 (Leach) Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 300 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE

	mitigate for permanent impacts to 0.04 acres of wetlands by (a) creating or restoring 0.08 acres of riparian habitat at a Department approved location or (b) by providing adequate funding for the creation or restoration of 0.08 acre of riparian habitat to an organization currently conducting restoration or enhancement of riparian habitat, with the organization and its activities to be approved by the Department.		
1994031011	Atascadero Creek Maintenance Project Santa Barbara County Flood Control District Conduct maintenance on Atascadero Creek. Maintenance consist of spraying silt trapping vegetation, discing the streambed, and sediment removal as necessary.	NOD	
1999041090	Arroyo Sorrento Waterline San Diego, City of San Diego--San Diego The project involves approval of a Participation Agreement to allow installation of the previously approved Arroyo Sorrento Waterline and paving of three existing dirt roads (Arroyo Sorrento Place, Tierra Del Sur, and Via Del Mar) within the existing public right-of-way. The roads surfaces would be bladed to a depth of one foot, then filled and compacted to eliminate existing bumps. Surfacing would consist of three inch AC paving of a 20 foot-wide road centered on the new water main. The purpose of this project is to protect the water main by preventing erosion of the water main trench and reducing or eliminating runoff.	NOD	
1999071102	Goleta Presbyterian Church, United Cerebral Palsy Foundation, Fairview Center Santa Barbara County Goleta--Santa Barbara The applicant proposes to restore the creek as mitigation by increasing the width by 10 feet, reducing the slope to a 2. 1 ratio for about 470 linear feet, and planting native on the banks.	NOD	
2000031092	Routine Maintenance Activities in Goleta Slough Santa Barbara County Flood Control District Goleta--Santa Barbara Remove sediments from Atascadero, San Jose, San Pedro, Carneros, and Tecolotito Creeks within the Goleta Slough.	NOD	
2000032060	LaMel Grand Tentative Subdivision Map No. 95 (Revised) by the Jeppson Trust as Administered by the Allante Financial Services. Amador County Volcano--Amador Division of 38 acres into seven residential parcels of 5+ acres in size	NOD
